

EVALUATION OF COs & POs

POs and COs are not only displayed on the college website but also given in the booklet containing this for each course of study every year. The evaluation procedure is given below:

COs & POs Evaluation Procedure

1. The students are required to take semester examinations and it is the first step to measure the POs in terms of marks secured by them
2. The internal assessment as part of CIA constitutes 25% weightage and 75% weightage in the paper to the total marks (100) in each subject. The students have to submit 3 assignments, minimum of 3 class test, 1 model examination which will be conducted like the semester examination. These are used to measure the POs of the respective subject. Internal/class tests, quiz, viva-voce, snap test, oral test etc. are also conducted.
3. Practical Examinations Assessment is done by the internal and external experts with Viva-Voce.
4. The result analysis is performed after the declaration semester examination results to evaluate the level of attainment of POs, PSOs and COs as specified by the university.
5. The Students are encouraged to take up internships, projects, fieldwork, etc.
6. The Placement Cell of the college helps in placement which reflects the COs.
7. The COs is also measured from the feedback mechanism containing 5-point scale, on-campus and off-campus placement of students, number of students pursuing their higher studies etc.
8. Finally, the results of feedbacks and placement will be placed in the meetings of the Governing Body, the Academic Council and the Departments, which will help to ascertain the impact of courses offered by the college. Accordingly, BOS will be called for to upgrade the curriculum and other requirements to make the courses meaningful, useful and competitive.
